

Sunday School Project

Thankyou for those people who contributed to our Sunday School project here in Solomon Islands. Your contribution has helped us to provide good materials to many of our rural village churches and it has been most rewarding seeing people's response.

The first run of lessons - "In the Beginning" were printed at the end of last year. We set a nominal price for the sale of the lessons, which was about a third of the actual printing costs. Included with the workbooks were scissors, pencils and crayons as most village churches have no resources at all.

This year, we have printed two further Sets, Fathers of Israel, and "Jesus came to help us". These have been priced slightly more expensive, but still under half of the printing costs. Again, crayons and coloured pencils were included in the sets.

The response has been excellent - as people have learned they were available, orders are coming in from all over the country, so that we have now all but finished the first run. Teachers are enthusiastic about how easy they are to teach, and pupils love having a picture and story to take home. Orders are now coming in from some of our most remote local churches.

Late 2008, we printed Visual Aid pictures in colour, to go with the lessons, and these will add a new dimension again for the teachers in helping them to portray the stories to children who do not have access to picture Bibles. This raises the price of the printing though. We have kept the purchase price the same.

There is enough subsidy money left to continue this ministry for another two sets, and then we will need to either raise more money, or reassess what we can provide for our rural churches, and what they can afford to pay.

Your contribution has been greatly appreciated,

Blessings
Shirley Taylor
