

# Saora Bible College 2009

As the sunrises over Saora it is the dawning of a new stage for the Bible College.

With our team from Maroochy Baptist Church on the Sun shine Coast QLD

The Work got started as soon as the Container arrived and was unloaded

There was some repair work done and a new shower put under the tank stand at teachers house so we could all use it. Then Brian Cook, Peter Delph and some of the team started on the toilet block after we found a good place to

While this was going on the classroom was being repaired by Keith and Colleen a new floor went down and the window frames were built and fitted.

Then Keith Bartlett was working on the roof of the container with John Hobbs

As all this work was going on we had a changeover of team members in the middle of the project. So the Bishop of SSEC Matthias Lima the came and gave a farewell speech to those that were leaving us. That was a very special time for those that were leaving.

The new team members didn't take long to get to work. Mick Odgers and Steve James got started on the septic tank

The First team members was so happy when Christine James arrived they didn't have to put up with my cooking.

Christine did a great cooking for us all with what she had to work with.

Peter Dovle helping in the new toilet block

Then at the end of the project head office and the local people gave us a farewell dinner in the new classroom. Bishop Matthias Lima gave us all a farewell speech and praised God for what had been achieved and sent a thank you to the families in Australia for their support .

**Not one of us is as good as all of us working together to build Gods Kingdom**
